Sunday's storm did not amount to much, but it still hangs around as if it meant business.

People who have ordered job work at this office must wait their turn until the rush is over.

Business is livening up in Carson and there is a much better feeling among our merchants.

Miss Maggie Gordon, who has been visiting friends in California for several months, returned home yesterday.

Henry Rosenbrock's little son Hal, who has been seriously ill for the past few days with croup, is now convalescing.

Bill, who formerly of Virginia City has been nominated State Senator on the Republican ticket from the 28th district.

The silver tide is rising in the Eastern part of the State until it seems like a great popular wave and is heading this way.

With a campaign on deck and district horse races coming off next week, life in the gay metropolis of Nevada is indeed worth living.

A man in the employ of O. Lonkey at Verdi, while driving an ox team, was kicked by one of the cattle and had his jaw broken.

A great many people in Kennedy are suffering from diarrhoea, caused by the drinking water. The same complaint has been prevailing at Austin for some time past.

The Silver meeting on Saturday evening in Virginia City was one of the biggest ever held on the Comstock. Old Storey will turn in about 500 majority for the ticket.

By a recent Land Office decision the good faith of a settlement claim is not impeached by absences from the land to earn money for support of settlers family and to purchase the land.

The V. & V. will charge but one fare—to the Jockey Club meeting in Reno—for the round trip. The races begin to-day and the entries advocate a very successful meeting of fast horses.

The Chronicle charges the Silver party and Populists with having elected Cleveland. Think what the Republican party might have saved by sticking to the silver pledge in its national platform.

The duck hunters report the game this season as very strong on the wing and leary of the hunter's gun. What is needed now is a fresh crop of mallards who haven't been hunted to death during the last two seasons.

Judge Jenkins in the trial of the strikers at Chicago yesterday rendered a decision that the men had a right to strike, and on the whole the decision is a clear recognition of the rights of employees to strike.

Citizen—What are you doing around here?  
Trump—I'm looking for work.  
"Work!"  
"That's what I said, boss."  
"Why don't you advertise in the Appeal for a job?"  
"Look here boss. I didn't say I wanted to find work. I'm just looking for it."

## Two Different Associations.

For some unknown reason parties in this city have confounded the Young Men's Club of Storey County with the Young Men's Institute. One is a Silver Club and the other an organization of the Catholic Church. Some of the members of one organization have joined the other, while men of all denominations belong to the Silver Club and they do not mix up their religious with their politics.

## A Word to the U. S.

The Ferguson "Lode" says: Men in search of employment should keep clear of this section for the present, as there are now at least two men for every job of work. Only one company is operating to any extent, and until times pick up there will be no demand for miners, mechanics or laborers of any description. A word to the wise is sufficient.

## Coarse Blood.

A Monroe (Mich.) young man bought a pair of overalls the other day, and in a pocket found a note from the young woman who made them, asking him to write to her. He did so, and was much surprised to receive a reply saying "that she was sorry he had no finer blood than to wear such a poor quality of trousers."

## Wilson-Ashurst.

Homer Wilson, who went to San Francisco a week or so ago ostensibly on a business trip, has returned with a fair bride. During his absence he married Miss Effie Ashurst of Red Bluff, daughter of C. B. Ashurst, one of the heaviest land owners of that section. The Appeal tenders its congratulations.

It is reported that China is in a bad way financially and not a bean in the treasury. In addition to this Japan is marching on to her capital. China clung to old fashion methods of warfare and Japan took all the new war inventions in out of the wet. Japan is now reaping the reward of its forethought and enterprise.

A. T. Spence an old veteran of the war and resident of Eureka, committed suicide by taking a dose of strychnine. He was seventy years of age and poverty was the cause. It seems a pity that old veterans of the war should be obliged to meet with such a sad ending of their lives.

An item is going the rounds of the Republican press of the State that a Doughty Club of one hundred members has been organized in Elko. There is no truth whatever in the report. There are no political clubs of any kind in existence here.—Elko Independent.

Three men held up the S. P. train near the Mexican border and secured \$20,000 of Wells, Fargo & Co. The robbers were overtaken eighteen miles east of Phoenix by the Sheriff. One robber was fatally wounded, one captured and one escaped.

## A Favored Corporation.

Governor Altgeld of Illinois has addressed the State Board of Equalization on the assessment of the Pullman Palace Car Company's property. He showed by figures and facts the company's methods of escaping taxation in Illinois and other states. The company, for instance, gave in \$36,000,000 as capital stock when it should be \$61,900,000. The Governor begged the Board to make a proper and just assessment of the Pullman property in justice to the people and the State.

The Pullman company, in the slang of the day, seems to have a pull on State Boards of Equalization everywhere. When the State Board of Assessors was in existence in Nevada it did not assess the Pullman cars going through the State and the Pullmans escaped both perpendicular and horizontal raises in Nevada.—Reno Journal.

## May Become Valuable.

Eugene Norris, who is interested in an extension of the Elko soap mine, brought in nineteen sacks of the stuff to-day to ship to the aluminum works at Los Angeles. Should the test be made prove satisfactory, there will be a big demand for the clay and the owners of the property may become millionaires before another year rolls around. There is a fair prospect that something will be done with the property as the deposit carries a high per cent of aluminum.—Elko Independent.

## Corbett's Brazen Gall.

New York, Oct. 1.—Representatives of Fitzsimmons and Corbett met here this morning. Fitzsimmons posted one thousand dollars forfeit for a fight with Corbett, and Brady, Corbett's manager, posted one thousand dollars on behalf of Steve O'Donnell for a fight with Fitzsimmons. Neither side would accept or consider the challenges made.

## Correct as Usual.

Some time ago the Appeal stated that negotiations were pending between the Sierra Nevada Wood & Lumber Company and the Carson Tahoe Lumber & Flume Company toward buying the former out. The other papers disputed this proposition but now admit that the Tahoe Company has purchased the wood and lumber interests of the other Company.

## Rhyme of the Season.

This is the season for hunting the duck,  
And banging big charges of lead at her.  
The sportsman wants write ups extolling his luck,  
But nary a bird for the editor.

The local political campaign in this county will open next week, when the sagebrush will be alive with the most impecunious lot of candidates that ever ran for office in this locality. It is no disgrace to be poor, but it is very inconvenient, especially when running for office.—Eureka Sentinel.

The candidates in this section of the country are none of them blessed with much wealth.

The Mexican mill resumed operations yesterday and shift men were put on at the Crown Point last night. This is good news, as it heralds an extension of industry. In a few days new and active exploration work will be begun in all the leading Gold Hill mines—Belcher, Jacket and Point. This means the employment of additional men for the present at least and will benefit the Comstock.
